

Burbage North Geocross V2 revision B 18 July 2020

No contact geocaching and crossword

To solve this crossword puzzle you need to visit the 7 locations of the main feature in the following photographs.

You will need the what3words app on your GPS device. Using your GPS device held over the main feature you then get the what3words address.

Save all the words and eventually fit the words to the crossword grid.

There are just three clues. Find these words first, then fit all the other words to the grid.

Clues

6 ACROSS Health and _____

12 ACROSS Films

19 ACROSS A single finger

The GPS on mobile phones can be imprecise. This can mean that multiple devices very close to each other might show different 3 word addresses, not because the 3 word addresses of your actual location is different but because the devices each think they are in slightly different places. Each location is a grid square 3x3 metres.

In order to help you ensure that you obtain the correct three word (W3W) address, the first word in the W3W is provided as a clue. You may need to walk around the main feature into different 3 x 3 metre grid squares to find the correct W3W address.

E.g. Let's assume that you are at a location given by the W3W address thick.verge.commented and you are told the first word of the W3W address is the word "thick". You now know you have found the right one.

Location	OS grid reference	W3W		
		First word	Second word	Third word
1	SK 25689 82085	movies		
2	SK 25896 81513	digit		
3	SK 25846 81485	safety		
4	SK 25800 81460	report		
5	SK 25392 81405	kept		
6	SK 25340 81436	note		
7	SK 25220 81607	score		

Each of the locations can be found on the route below. The locations are listed in order and sufficient background is included to help you triangulate your position to identify the location.
