Mike Browell August 2020 (mike.browell@btinternet.com)

To solve this crossword puzzle you need to visit the 15 locations of the main feature in the following photographs.

You will need the what3words app (W3W) on your GPS device. Using your GPS device held over the main feature you then get the what3words address. You will probably have to move around to find the W3W square containing the 'word' provided.

Save all the words and eventually fit the words to the crossword grid.

There are just four crossword clues. Find these words first, then fit all the other words to the grid. There may be more than one solution.

Clues

15 ACROSS moving like a pony

19 DOWN begins with 'o'

31 DOWN holds things together

36 DOWN has 'oo' in it

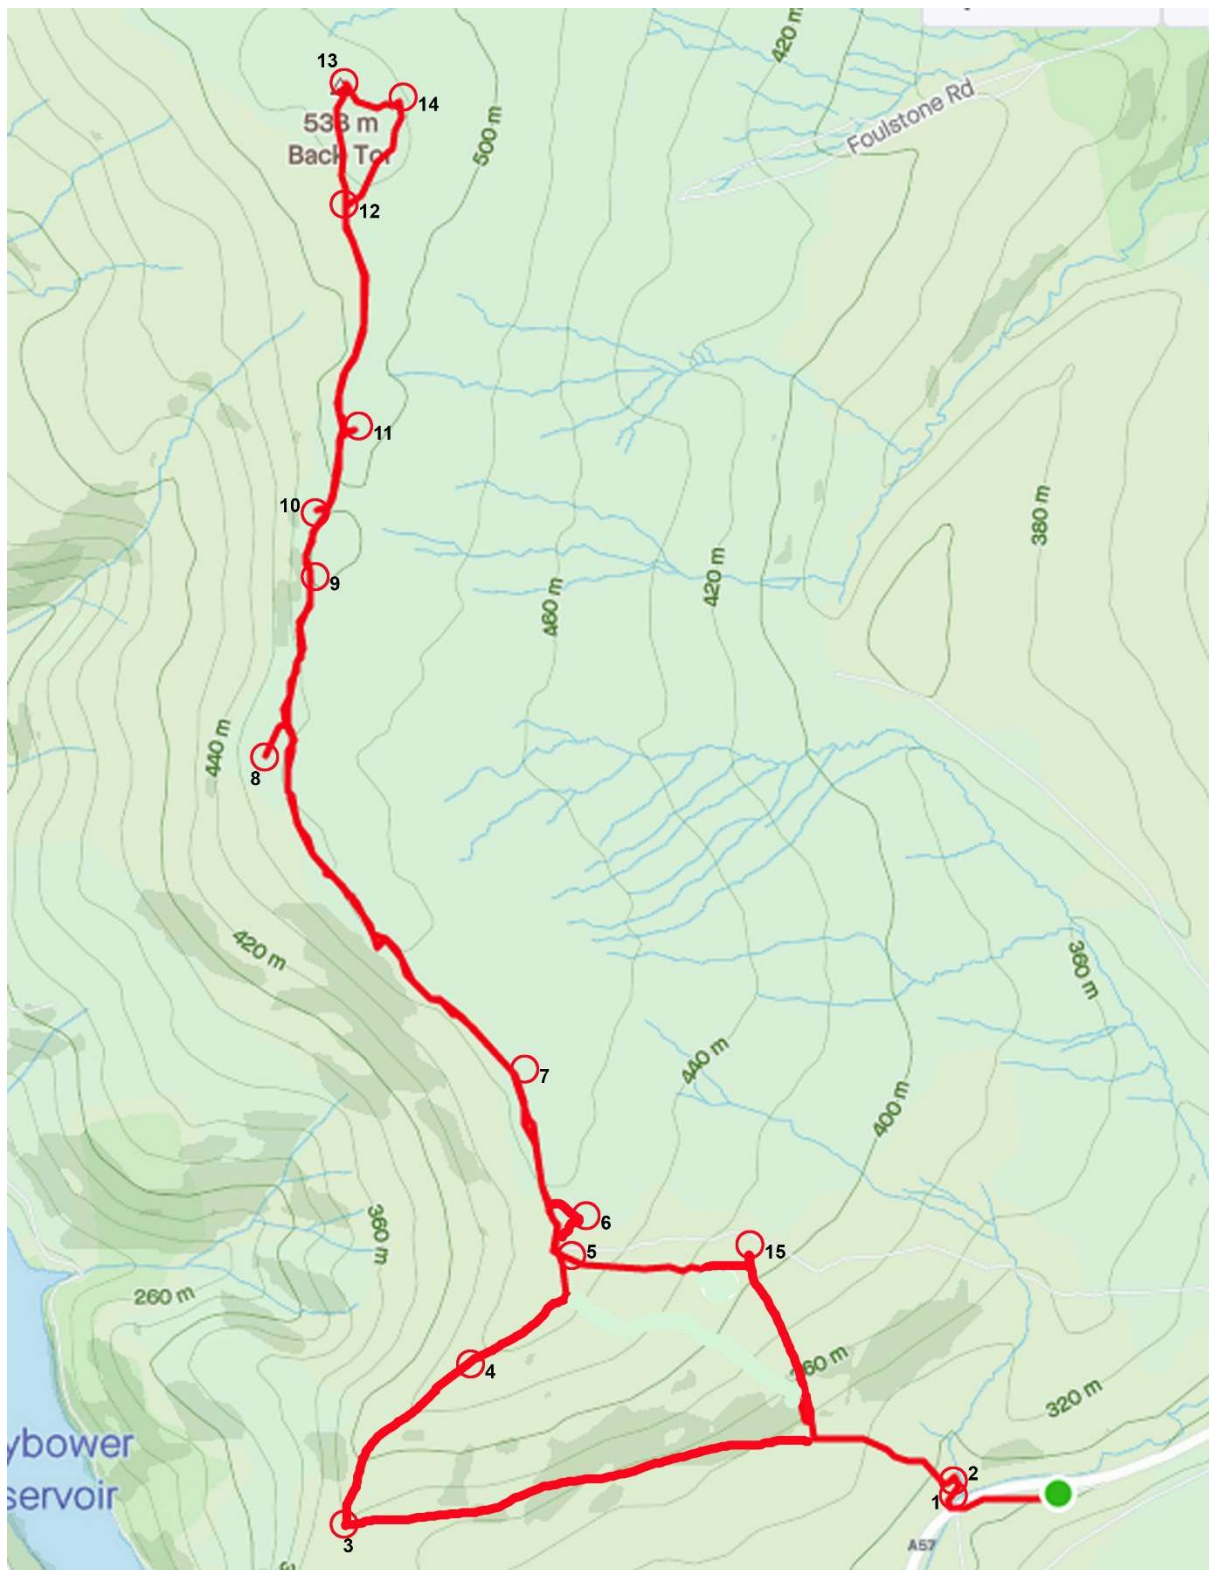

The GPS on mobile phones can be imprecise. This can mean that multiple devices very close to each other might show different 3 word addresses, not because the 3 word addresses of your actual location is different but because the devices each think they are in slightly different places. Each location is a grid square 3x3 metres.

In order to help you ensure that you obtain the correct three word (W3W) address, the first word in the W3W is provided as a clue. You may need to walk around the main feature into different 3 x 3 metre grid squares to find the correct W3W address.

E.g. Let's assume that you are at a location given by the W3W address thick.verge.commented and you are told the first word of the W3W address is the word "thick". You now know you have found the right one.

Each of the locations can be found on the route below. The locations are listed in order and sufficient background is included to help you triangulate your position to identify the location.

Start at Cutthroat Bridge layby.

Location 1 OS ref SK 21334 87383

Cutthroat Bridge - gate

Contains "circular"

Around 1600 a man was discovered dying in Highshaw Clough, the valley of the stream which goes under Cutthroat Bridge. His throat had been cut and he was left to die two days later.

The present route of the A57, and the present day Cutthroat Bridge, dates from much more recent times, 1820 when the turnpike road was built.

Location 2 OS ref SK 21364 87463

Old Cutthroat Bridge – east of stream

Contains “waxing”

The old bridge and historic packhorse and cart track is approximately 200 metres north of the present day A57 road.

Location 3 OS ref SK 19798 87398

Bridleway crossing

Contains “escalated”

Well signed footpath crossing between Derwent Valley and Moscar.

Location 4 OS ref SK 20115 87743

Boulder near Hurkling Stones

Contains “camp”

Recently resurfaced ‘footpath’. Paid for by ‘Moors for the Future’, but chiefly benefits moorland management and access for shooting parties. Walkers don’t need a three metre wide path.

Location 5 OS ref SK 20326 88024

Shooting Butt

Contains “beams”

It seems to be unnecessarily close to a public right of way path junction. Concrete has been used in the construction, probably because the improved 'path' allows concrete to be carried onto the moor.

Location 6 OS ref SK 20388 88158

A very odd shooting butt

Contains "hurry"

Another example of the convenient use of concrete to build an unattractive shooting butt.

Location 7 OS ref SK 20235 88554

Wheel Stones – east end

Contains “engine”

East end Wheel Stone, south east corner.

The Wheel Stones are a prominent skyline landmark, also known as the Coach and Horses.

Location 8 OS ref SK 19580 89264

Salt Cellar

Contains “blankets”

One of several wind-sculpted gritstone tors.

Location 9 OS ref SK 19663 89606

Derwent Edge sign

Contains “person”

The end of the engineered road.

Location 10 OS ref SK 19701 89912

Dove Stone - east

Contains “eyelash”

Above the fantastically sculpted Dovestones Tor.

Location 11 OS ref SK 19842 90123

Cakes of Bread – west

Contains “discloses”

Another skyline landmark, similar to the Wheel Stones

Location 12 OS ref SK 19780 90705

Bradfield Gate Head guidepost stone stoop

Contains “arose”

Where Foulstone Road crosses the Derwent watershed. This is the route connecting the village of Bradfield with Derwent.

Location 13 OS ref SK 19763 90993

Back Tor trig point

Contains "outings"

Positioned on a blob of concrete.

Location 14 OS ref SK 19916 90949

Back Tor East graffitti rocks - east

Contains "sensitive"

Probably carved by shooting parties. One is dated 1868.

Location 15 OS ref SK 20793 87973

Guide post stone stoop

Contains “divider”

On the path between Moscar and Derwent.
