

## Houndkirk South Geocross V4 - revised

No contact geocaching and crossword

To solve this crossword puzzle you need to visit the 9 locations of the main feature in the following photographs.

You will need the what3words app on your GPS device. Using your GPS device held over the main feature you then get the what3words address.

Save all the words and eventually fit the words to the crossword grid.

There are just three clues. Find these words first, then fit all the other words to the grid.

Clues

4 ACROSS very colourful

9 DOWN longest word 7 letters

17 ACROSS CIA personnel

The GPS on mobile phones can be imprecise. This can mean that multiple devices very close to each other might show different 3 word addresses, not because the 3

word addresses of your actual location is different but because the devices each think they are in slightly different places. Each location is a grid square 3x3 metres.

In order to help you ensure that you obtain the correct three word address, one of the words in the three word address is provided. You may need to walk around the main feature into different 3 x 3 metre grid squares to find the correct 3 word address.

E.g. Lets assume that you are at a location given by the address `///thick.verge.commented` and you are told the address contains the word “verge” you can see that the word “verge” is one of the words in the address so you know you have the right one.

OS grid references for the 9 locations are:-

- 1 SK 27533 80802
- 2 SK 27627 81240
- 3 SK 27631 81344
- 4 SK 27933 81303

- 7 SK 28335 82228
- 8 SK 28311 82473
- 9 SK 27503 81351

Each of the locations can be found on the route below: This map can be found on Strava in my feed if you want to zoom in for more detail. The locations are listed in order and sufficient background is included to help you triangulate your position to identify the location.
